For more information relating to Anthony's work, please Anthony Patch: Author, Researcher, Educator, Speaker, publisher of Entangled Magazines, related articles, and live streams, email Anthony Patch: <https://anthonypatch.com/>.

We'll dive right into this special edition. I may be the captain, but I'm actually the co-pilot; God is the Captain. We're not flying on a rocket this evening nor a missile. We are on Patch Airlines, and we are going to continue at 40,000 ft this evening. I do believe that Joe Bag of Donuts has brought the doughnuts for our in-flight snack this evening; nice healthy diet, donuts.

I appreciate you all joining me for this special edition of our Monday Livestream to try to bring back to a conclusion our live stream that we began yesterday (27Sep2020). As I briefly announced to everyone last evening as I was cutting off the livestream, Kathleen and I live in a very small town in New Hampshire. It's only about 900 people here, and I wanted to contribute to the community. I felt that the best way I could do that was to volunteer as a firefighter.

I was a paramedic for 27 years in Oakland. I also had completed the State of California's requirements for Firefighter 1 in the late '80s. That's ancient history, but I brought that to the town. They were more than happy to have me join, and I've been going through the training process. There's a lot to learn as a firefighter, even for a small town. We've been pretty busy the last week. There's been a lot of call-outs for a variety of things, and last night we had a call-out during the live stream.

Thank you for allowing me to join with you again this evening to continue our thoughts and our conversation regarding the "Final Solution". This is in regards to, not Hitler necessarily, but the final solution of Satan in these latter days. We will pick up where I left off last night. I was about to jump into the 4 phases of the distribution of the vaccine and the availability of the vaccine for COVID-19.

We led into that talking about two groups and the psychological operation that has formed two predominant groups on a global scale. We're not talking politics; we're talking psychology. What is

going on is we have one group that is demanding the vaccine, demanding people wear a mask, demanding quarantine. In other words, they are very pro-vaccine specific to COVID. The other group is the anti-lockdown group, as I'm calling them. Those that are ramping up their efforts to push back against the lockdown. Now they're not necessarily pushing back against the vaccine, and this is the interesting factor in this psychological operation built upon problem-reaction-solution.

The two groups; they are bifurcated groups. They're divided. They're both angry. They have similar characteristics. They both are reacting. The problem is the pandemic, COVID-19. One group is reacting angrily, demanding lockdown. The other group is anti-lockdown and equally angry. In fact, their anger is increasing. It is increasing as the numbers come in. In the scenario of the spiking of the number of COVID cases as a result of people going back to school, including the universities, people going back to their jobs, to the workplace.

But predominantly, I'm suggesting that you focus on the numbers coming out of the universities, the high schools, the elementary schools, the preschools. As children go back to school, young people go back to school, inevitably there is going to be a second phase, the second spike, to the COVID numbers, and that's by design. The anti-lockdown group will become even more vociferous, more vocal, more angry as the governments around the world clamp down again because of the spike. The reaction is more anger by the anti-lockdown group.

Though on the surface, those two groups from 40,000 ft. on Patch Airlines, we can actually see what is going on down at ground level. Specifically, we have two groups that are pitted against one another, but both groups are identical because they are both reacting to the Hegelian dialectic of problem-reaction-solution. They will come together in their equality. Their equal demand for a solution

Again, a psychological operation exhibits itself as two groups that have reacted angrily, and now in the solution, they are demanding a solution. The anti-lockdown group is demanding a solution to the lockdown to bring lockdowns to an end. While the other group, the pro-lockdown, is demanding a solution because they are angry against not only the anti-lockdown group. Those who are violating the rules as they see it: not wearing their masks, not staying 6 ft. apart, socially isolating, socially distancing one another. People that are violating quarantines.

The group that is following the governments' narratives around the world demand a solution because they see people violating the rules, violating the lockdown. So, they come together, these two opposing groups, equally angry, spiking COVID numbers of COVID cases, the case numbers are increasing. As I said yesterday, the numbers are purely artificial, purely to serve the narrative.

What is that solution? Well, that's obvious to us. The narrative of the elite, so to speak, are pushing the vaccine. I shared with you yesterday the website that lists all of the vaccine research that is going on by companies, by drug companies, and where they are in their timelines. What I want to segue to tonight is the 4 phases of the distribution of the various types of vaccines.

As I cautioned you last night, two types of vaccines will be in the mainstream media presented to the general public who don't really understand what's going on, don't really understand the science

behind a DNA or a messenger RNA vaccine. In this narrowing of the funnel of the global population that doesn't understand what's going on, doesn't understand the science, we have a very small group of people on this planet (yourselves included) that have, through the Holy Spirit, been supernaturally equipped with the knowledge and the understanding, the interpretation, the insightfulness of what's going on, and understanding the science behind what's going on with the psychological operation. You have been supernaturally equipped, and your knowledge will continue, and your understanding will continue to increase as it says in Revelation in the latter days.

But the majority of the population is clueless. They just follow the narrative. Therefore, mainstream media will continue to speak in terms of using the label "DNA" in talking about vaccines. It will only be later on in these 4 phases I'm about to present to you that they will begin to be more specific in the media and start speaking with the label presenting the label of "messenger RNA" or just "RNA."

But what the media will never tell you, never tell them, the global population is what we have been (Kathleen and I) have been presenting to you all of this year. Specifically, in March, when we first presented the microneedle array patch delivery system of the vaccine. What they will not tell you is that this vaccine will change the DNA of the recipients of that vaccine, permanently altering DNA, rendering themselves separate from God. God will no longer find their names, which is their DNA, no longer find their names written in the Lamb's Book of Life. Because they're separated from God, their soul is separated from God, and their soul is then condemned because they've taken the mark of the beast willingly, knowing that it is the mark of the beast.

It will be completely explained as the mark of the beast, labeled as the mark of the beast, in phase 4. I'll go through all four phases here. This will be the worship of the Antichrist, who, in his performance of lying signs and wonders, will be presenting solutions to the world that result in people applauding and worshiping him and being more than happy to take the mark of the beast. Including the two camps, the two groups, those that were pro-narrative, pro-lockdown, and the other group, the anti-lockdown group, both of those groups coming together and willingly applauding the mark of the beast.

But they don't understand that their DNA will be changed when they take the mark because they turn their backs on God. They don't have the benefit of the understanding, the interpretation, the insights, the supernatural knowledge bestowed upon those that are saved by the Holy Spirit. That is the gift.

The majority of the population of the world will take the solution, the final solution. This is what Hitler was trying to achieve. His people, his cadre, were into DNA modification. They didn't have the technology that we have today and, therefore, could not achieve the final solution.

But the final solution is the changing of everyone's DNA that takes the mark of the beast because Satan's solution is condemning a person's soul to hell for all eternity.

Now, let's take a deep breath. Satan's modus operandi is to counterfeit that which God created. He cannot create anything himself. Here's a counterfeit for you in this discussion of the final solution.

When we are born again through the grace of God, when we are gifted with the remission of our sins, the cleansing of our sins, we are born again.

I maintain that our DNA is actually changed when we're born again. That we have taken on the full armor of God in so far as our DNA has been changed, and it is armored against the changes that Satan is pushing on humanity.

Does that mean that you are protected if you take the mark of the beast? If you take the vaccine for COVID-19? If you have taken into your body, by way of the microneedle array patch, the messenger RNA that travels to the nucleus of every cell in your body and changes the DNA?

Because that's what RNA does, it produces the double helix, the double-stranded DNA. That's why RNA changes the DNA of the host because that's what it does, normally. It produces DNA. It pushes aside if you will; it renders inert the original DNA. This is why God no longer finds the DNA that he created. It's displaced by Satan's creation of a new DNA, by way of RNA, the natural process of RNA, an RNA that has a man-arranged sequence of nucleotides. They've rearranged the genome, artificially. That's one example of a counterfeit of God's creation.

But when we focus upon our DNA being changed by way of salvation because of the sacrifice of Jesus Christ, and we are born again. We're born again to heaven. We're destined to heaven. That born-again scenario and it's a phrase, that's a scenario label that has been overused, but it's familiar, so I use it again here tonight. When we are born again through God's process, Satan counterfeits.

This is the important point tonight. This is what the final solution is all about. Satan's version of a person being born again is their taking the mark of the beast, which signifies their allegiance, their pledge of allegiance, their worship of the Antichrist, as opposed to worshipping Jesus Christ and God. Satan's version of being born again is taking the mark that changes the DNA of the person.

That is Satan's version of being born again is the DNA modification through the vaccine available only to those that willingly take and knowingly take the mark of the beast. That's the counterfeit of God's children being born again. The benefit of being born again through the salvation of Jesus Christ is that we have this perspective from 40,000 ft. on Patch Airlines of what is really going on. This is why the rest of the world is blind.

As a point of review, let me go back to the graphic that I used yesterday. For our Scripture, we are using Romans 8:3, which I presented yesterday. I'll get into that in a moment again, and then we'll go to the four phases.

Here [graphic on screen] with the human cell, we have the nucleus here. We have the nucleus within the cell. RNA is delivered by hydrogel; hydrogel that has within it micro-nanosized magnetic particles, magnetic particles that respond to magnetism. They respond to a 5G electromagnetic signal that propels the hydrogel, that carries the messenger RNA, and provides the mechanism by way of the hydrogel, moving (carrying) the RNA to penetrate the outer cell membrane, travel through the cytoplasm (the liquid), and penetrate the next membrane which is the membrane around (surrounding) the nucleus.

Once it enters the nucleus, the RNA does what it does naturally. It begins to replicate into a double-strand, a twisted helix, a helical pattern of DNA. But a DNA that is coded artificially (c-o-d-e-d, coded), a genomic (a genetic sequence) that is artificially first designed in silico. In silico meaning in the software, in the silicon of the computer. Think of CRISPR technology, a rearrangement of the nucleotides. That's what comprises the RNA, and then the RNA reproduces that artificial arrangement of the nucleotides producing an artificial DNA sequence. And it's permanent.

We presented the medical literature in this: the medical professionals, their testimony, their transcripts in the pages of Entangled Magazine. We are simply reporting those facts and those testimonies that this permanently alters the human DNA. This will not be presented to the people through the mainstream media.

People won't even listen even if it was presented because they are so angry. Their reaction in the problem-reaction-solution, their reaction of anger and fear is so exacerbated, so accelerated, so heightened by the coming spike numbers of COVID 19, and the constant pushing by the governments to accelerate the development of the solution, the final solution, the vaccine that people won't listen. All they want is a quick fix. They want a quick solution.

Both groups: that are opposing those that are pro-lock down; and those that are anti-lockdown. Both will demand the solution, the final solution, the vaccine for their own reasons. This is psychologically induced. This is psychological programming. This was designed by artificial intelligence itself, learning in its early phases from observation of human behavior, understanding human behavior, and advancing artificial intelligence.

It has reached the point, and this was back in 2018. This was clearly in the literature that through artificial intelligence, man created this plandemic scenario, and the timing of the beginning of that scenario, the launching of it, was established through artificial intelligence. What we are immersed in right now is a scenario and a narrative created through artificial intelligence. The source of artificial intelligence is Satan himself.

We will go to the 4 phases, but we'll do that right after I refer back to Romans 8, beginning with verse 1. With all of what I've just said is a backdrop, these verses will leap off the page.

Verse 1, "Therefore, there is now no condemnation for those who are in Christ." What is the condemnation today? We're taking familiar Scripture and applying it in the modern context. What is the condemnation? It is the mark of the beast condemning a person's soul to hell for all eternity. But not for us that are in Jesus Christ Jesus because we understand what's going on. We see the danger.

Verse 2, "For in Christ Jesus the law of the Spirit of Life set you free from the law of sin and death. For what the law was powerless to do in that it was weakened by the flesh, God did by sending his own Son in the likeness of sinful man as an offering for sin. He thus condemned sin in the flesh so that the righteous standard of the law might be fulfilled in us who do not walk according to the flesh but according to the Spirit.

Those who live according to the flesh set their minds on the things of the flesh. But those who live according to the spirit set their minds on the things of the spirit. The mind of the flesh is death. The mind of the Spirit is life and peace because the mind of the flesh is hostile to God. It does not submit to God's law, nor can it do so. Those controlled by the flesh cannot please God.

You, however, are controlled not by the flesh but by the Spirit and if the Spirit of God lives in you. And if anyone does not have the Spirit of Christ, he does not belong to Christ. But if Christ is in you, your body is dead because of sin. Yet your spirit is alive because of righteousness. And if the Spirit of him who raised Jesus from the dead is living in you, he who raised Christ Jesus from the dead will also give life to your mortal bodies through this Spirit who lives in you.”

You can read the balance of Romans 8; it is speaking directly to the abomination that causes desolation. The destruction of the human body: the temple of the Holy Spirit, for those that are saved; for the unsaved that remain in the flesh, they turn their flesh, their back, against God. Therefore, they're subject to having their DNA undergo this abomination that condemns their soul to hell.

This is the final solution that Satan has been seeking for centuries. His solution is the destruction of God's creation. His solution is changing the DNA so as to steal the souls. Why is the DNA being changed? It is to steal souls. All of this was planned through Satan's inspiration for the creation of artificial intelligence and the false prophets behind artificial intelligence-driven by quantum computing. The development of quantum computing runs parallel in the timelines that move in lock-step in the development of quantum computing and artificial intelligence.

Quantum computing was designed specifically for the mark of the beast, specifically for the development of AI. Those false prophets within the scientific community developing quantum computing and AI together, they claim, they profess that artificially intelligent humans, through modification of the DNA through their brain-computer interfaces (through the transhumanist agenda) that those humans equipped with that artificial intelligence will be able to do everything that a human can do-and do it better.

Do everything better, the false prophets preach. That AI will do everything better than a human. Those are the lies put forth by Satan in the development of quantum computing and thereby the development of artificial intelligence.

Know them by their fruits. What are the fruits of the false prophets of these technologies? Fruits meaning the results, the proof, the evidence, the facts, it's all that which Kathleen and I have been presenting to you. The fruits coalesce to the focal point of the mark of the beast changing a person's DNA to steal their souls, condemning their souls to hell for all eternity, separating them permanently from God. This is what Satan has been seeking for thousands of years.

This is the changing of the DNA, thus, resulting in the stealing of the souls. You see, when a person's DNA, their name, is no longer found in the lamb's Book of Life, there's only one direction for a person's soul. A person's destiny is sealed by that mark of the beast. A mark is a seal. There's only one direction that a person's soul can travel. God doesn't recognize the person anymore. Where does

the soul go if it's not eligible to go to heaven to continue in a personal relationship with God and Jesus Christ and the Holy Ghost? There's only one alternative, and that is hell.

That's the final solution. We are facing that. The timeline shows us that we are facing that now we as those that are saved, whose DNA has been changed by the shedding of Christ's DNA, his blood, we have nothing to fear. We know our destiny. We know that we are sealed. We have God's seal on our forehead already. We are sealed. Our fate, if you like to think of it that way, it's sealed. We have a permanent relationship with the Holy Trinity.

We see the timeline, Operation Warp Speed. I'm going to share the 4 phases with you right now. These are indicators, not setting dates. What I shared with you about the development timelines of the vaccines, these are just timelines. They are markers on the road, on the path in this season. But from 40,000 ft. on Patch Airlines, we can see the timeline, most of the world cannot.

The revealing of the identity of the Antichrist is very near. We can use it as a guide to the timelines of the development of the vaccines and the timelines of the distribution of the vaccines.

Let's go to the 4 phases. I posted this to the Patrons. These are the 4 phases I'm going to go to the article that I posted. This is the benefit for those of you who are listening from the general public, this evening as well as when this is posted openly on YouTube. One of the benefits of joining us as a patron is you have this information sent to you to reference as we're going through the live stream.

The title of this is "The US Advisory Group lays out detailed recommendations on how to prioritize the COVID-19 vaccine." This comes to us by way of statnews.com dated September 1st of this year. "A new report that aims to prioritize groups to receive COVID 19 vaccine focuses on who is at risk rather than using job categories or ethnic groups to determine who should be at the front of the line."

Now yesterday, I gave you the big takeaway: The 4th Phase will be the microneedle array delivery system of the vaccine. I said yesterday the vaccine that they're going to deliver is not a cure for COVID-19. They're not trying to cure what essentially is no worse than a seasonal flu. They're not trying to vaccinate people against it. They're not trying to treat the signs and symptoms of those that are exhibiting those.

All they are going to deliver, as I said yesterday, in Phase 4 is a placebo: Sterile water (sterile normal saline). All they want to deliver is messenger RNA. That's all they want to do. They want to get that into everyone's bloodstream, so it is delivered into the brain and into every cell in the body.

What is all this theater about drug companies developing and testing vaccines? It's all for profit in the short term. In the near term, it is all a scenario to benefit financially those that are involved with drug companies.

In the end, it is just a placebo that will be delivered. How do I know that? I don't mean to sound like I'm pontificating or making more of myself and Kathleen than we are. We're just your researchers and your reporters that you have hired us through Patreon to report. What I'm sharing with you is what you experience in your own research as led by the Holy Spirit, as inspired by the Holy Spirit, as

revealed by the Holy Spirit, as interpreted by the Holy Spirit, in your own supernaturally increase in knowledge that you are already experiencing. We are as well. We are in this with you as equals.

What I'm saying here is that supernaturally we are all given this understanding, and the understanding specifically that I'm talking about here, tonight at this moment, is that this vaccine will be nothing more than a placebo to deliver messenger RNA into every nucleus of every cell to then reproduce the DNA that is not recognized by God. That's phase 4. Let's go through this

“It was widely expected that health care workers would be the first priority grouping, and some though not all are. There were also many voices arguing for people of color to be given priority access because the pandemic has exacted a disproportionately heavy toll on Black and Latino people both in terms of overall numbers of infections and deaths. In the end, the panel of experts that wrote the priority, setting the framework for the National Academy of Science Engineering and Medicine, chose, instead, to focus on the factors that create the risk for some people of color since systemic racism that leads to higher levels of poor health and socio-economic factors such as working in jobs that cannot be done from home or living in crowded settings.”

The report, a draft was issued on Tuesday. Again, this article was dated September 1st, quote, “This virus has no sense of skin color, but it can exploit vulnerability,” said Bill Foege, a former Director of the CDC who was a co-chair of the committee. The committee was set up by the National Academies at the request of Francis Collins, Director of the National Institutes of Health, and Robert Redfield, the Director of the CDC. Foege said he expects pushback. A virtual public meeting on the recommendations will be held Wednesday afternoon.”

That's in the past that's already happened, and written comments can be submitted until Friday. The committee's final report will be submitted later in September. When COVID-19 vaccines are approved for use, initial supplies will be tight, potentially in the tens of millions of doses. Most of the vaccines under development will require two-doses per person: A priming dose followed by a booster either three or four weeks later.

Let's look at the graphic I have posted—Phase 1, 2, 3, and 4. Let's go again to Phase 4: Everyone residing in the United States who did not receive the vaccine in previous phases.

Why am I jumping to Phase 4? Problem-reaction-solution. You have the two groups opposing one another but both in agreement that they want a solution. Their anger will quickly push the population and the distribution from Phase 1, which will be a hypodermic needle delivery of the vaccine through Phase 2 and Phase 3.

Phase 1 is the jump-start phase: High-risk workers, and health care facilities, first responders.

Phase 1b: People of all ages with comorbid and underlying conditions that put them significantly higher at higher risk and older adults living in congregate or overcrowded settings.

Phase 2: Critical risk workers: Workers who are both in industries, essential to the functioning of society, and at substantially high risk of exposure. Teachers and school staff, people of all ages with comorbid and underlying conditions that put them at risk. All older adults not included in Phase 1.

People in homeless shelters or group homes for individuals of physical or mental disabilities or in recovery. People in prisons, jails, detention centers, and similar facilities, and staff who work in such settings.

Phase 3: Young adults, children, workers, and industries essential to the functioning society.

Phase 4: Everyone.

They're going to quickly move through the first 3 Phases because you have two groups that are so angry and so demanding of a solution. They're not going to allow for this phased-in distribution. How can I say that? Operation Warp Speed does not just apply solely to the development of the vaccine, and we shared this with you last month, but it applies (Operation Warp Speed) to the distribution. Remember, Trump wanted by October 1st, we told you this four weeks ago. He wanted it by October 1st, partly for political reasons because of the November 2nd elections.

But also, because he is the spokesperson for the elite that are pushing this AI-designed and AI-timed plandemic. They know they're just going to inject people with a placebo delivering the messenger RNA. They have to get people so angry, so fearful. The fear factor generates the anger, and the anger generates the demand for the solution.

And because Operation Warp Speed applies to the distribution of the vaccine, they will quickly move through the first 3 Phases so they can get to everyone, Phase 4. This is not just the United States. This same 4-phase process of distribution applies to every country. This just happens to be presented by the CDC in the National Institutes of Health here in this country. But it is the same 4 Phases that will be applied to the entire global population.

Why is this being accelerated? Why are they pushing Operation Warp Speed? From 40,000 ft. Patch Airlines, with the benefit of the Holy Spirit providing supernaturally the understanding of what is going on, we can understand why it's moving so quickly.

It's moving so quickly because Satan wants to bring on his kingdom as quickly as possible. I've said it many times, and I'll repeat it again. He is trying to conduct an end-run maneuver, borrowing from football. He's trying to circumvent God's timeline, his plan. Given his hubris, Satan doesn't even have the self-awareness that he is the instrument of judgment of God himself. Therefore, he cannot violate the timeline, but, in his hubris, he thinks he can.

He's pushing humanity, his slaves, to achieve his goal, which is to establish his kingdom through the Antichrist. It is Satan's spirit that indwells the human who is the Antichrist and that revealing of the identity is coming very quickly because of Operation Warp Speed. They are joined at the hip. The acceleration of the vaccine development and distribution and inoculation, not by a hypodermic needle That will happen just in Phase 1

It'll move so quickly because again, here's the problem with the injection. We presented the CDC playbook to you a couple of weeks ago. It's in the archives. They focused on a COVID-19 vaccine that could be injected. But the weak link in that process is that that vaccine delivered by way of a syringe through a hypodermic needle requires refrigeration of the vaccine that will completely fall apart. If

you look at it logically, the logistics cannot be maintained in the maintenance of a cold chain delivery system to the point of injection.

You have, again, two groups: One that is pro-lockdown, therefore pro-vaccine, and anti-lockdown but equally pro-vaccine because both groups want a solution. They are so angry and so demanding of a solution they will not tolerate the breakdown in the distribution and delivery of a vaccine requires refrigeration.

That breakdown is also planned. Why can I say that? How can I say that? Because AI understands intimately human behavior because it learned from human behavior and then built upon that in its advancement. It's able to predict human behavior given a certain stimulus that is presented to humans. You put a stimulus into the environment, knowing exactly what the reaction will be to that stimulus in that environment. That's the essence of a psychological operation.

You know the outcome before you begin the operation. So, to increase the demand, you have by AI, a planned disruption, crumbling, breaking of this cold chain supply chain delivery system. It will (watch for it) in Phase 1; it will completely fall apart. That serves the fear factor, the anger factor, the demand for the solution by both opposing groups.

Humanity will be so pent up for a savior that when the Antichrist is revealed, his identity is revealed, and the economy has collapsed around the world. The reset that we've been talking about for months and months that the World Economic Forum has openly published (and we put it in Entangled Magazine months ago) when all of this is happening and coalescing together, the Antichrist will be revealed to the world. The world, not us, but the world that doesn't understand (the unsaved) those that willingly turn their back on God will applaud.

They are so angry that they will say finally we have a leader with the answers, with the solution. All the Antichrist has to do, which is the spirit of Satan is say, here's the solution that you're demanding to COVID-19, take my mark. Take my mark signifying your worship of me, whom you're applauding, whom you're welcoming. Take this willingly; Take my mark as a sign of your pledge of allegiance to me, the Antichrist.

Do you see how easy this is? Yes, the mark of the beast. The microneedle array delivery system of the mark of the beast will be clearly labeled as such. People who have turned their back on God will want to present to others, like the mask, signifying their willingness to comply. That's what that is. It's a seal. The mask is a seal. It shows people; it is a mark. It shows people that they're compliant.

The mark of the beast on the forehead or on the hand is something that people will be proud to display. Yeah, hey, I have the mark. It's the beast; it's the Antichrist. We want the Antichrist. We worship the Antichrist because he's bringing all the solutions so that there's no more lockdown so that we don't have to wear masks so that we don't suffer and die.

Yet as we've presented again, those that take the mark of the beast suffer the sores on their bodies for five months, and they seek death in all its forms. But never achieve death for five months because of taking the mark. Those sores on their body are the result of the DNA modification.

It's an outward sign that their DNA has changed by taking the mark delivered by the microneedle array patch containing the hydrogels with the micromagnetic, the nanoscale magnetic particles embedded in the hydrogel. Its only function is the delivery mechanism of the messenger RNA through the cell membrane through the cytoplasm through the membrane of the nucleus, and within the nucleus, the RNA beginning the replication process resulting in the new artificially coded DNA sequence that God does not recognize.

Phase 4 is the coalescence of all of these events. When we talk about the failure in Phase 1 of the cold chain supply system and that failure pushing the world through the next 2 Phases, the answer is the microneedle array patch that does not require refrigeration.

Do you see how that's a solution? It's an easy answer. You don't have to have healthcare professionals injecting people, which logically, you can see that the logistics of using the needle on 7.8 billion people just cannot be achieved. But you can mail out. You can send out through FedEx, UPS, all the delivery systems, including Amazon. You can deliver and mail patches that are band-aids that people can put on themselves.

Do you see how that's already a solution that people will welcome; people will applaud? Okay, from 40,000 ft. on Patch Airlines, we can see this very clearly. It's very simple to see, and yet the world is blind to it.

A person in the chat room is asking what happens after the five months? People start to die for five months. They're immortal for five months, a form of immortality, because they try every mechanism of death, and they're not successful. That's right in Scripture, so they die after five months.

I think we've discussed the two groups and the Psyop enough. We'll come back to it a little bit, but I want to move on.

I want to talk about quantum dots for a moment because this is part of the microneedle array system is delivering the quantum dots which are embedded with luciferase that luminous material that is detectable as near-infrared light. Quantum dots and quantum computing; artificial atoms in silicon quantum dot create stable qubits for quantum computing. My lovely wife Kathleen sent this to me about 20 minutes before we went live tonight, and you guys know I'm a speed reader.

This is dated February 11th of this year. It is being presented by scitechdaily.com if you go to this in your archives. "Quantum engineers from the University of the New South Wales in Sydney have created artificial atoms in silicon chips that offer improved stability for quantum computing. In a paper published today in Nature Communications, quantum computing researchers describe how they created artificial atoms in silicon, a quantum dot, a tiny space in a quantum circuit where electrons are used as qubits or quantum bits, the basic units of quantum information. Scientia Professor Andrew Dzurak explains that unlike a real atom, an artificial atom has no nucleus, but it still has shells of electrons whizzing around the center of the device rather than around the atom's nucleus."

Now he gives back-history on this, but I want to stay focused. “But what really excites us about our latest research is that artificial atoms with a higher number of electrons turn out to be much more robust qubits than previously thought possible meaning they could be reliably used for calculations in quantum computers. This is significant because qubits based on just one electron can be very unreliable.” Now you can read the balance of this if you like.

Let me explain why this is so significant and why I'm presenting it to you? There's something else in this article I'm going to come back to in a moment. But I want to focus on the quantum aspect, the quantum dots, the quantum computer. This is going to take us to a presentation of something that I have spoken about for many years, and that is the sentient world simulation, the SWS, out of Purdue University. This is a simulation of the entire planet. It is a simulation of every person on the planet who is recognized in the software as a computer node, and they're given an avatar to replace their identity; Sentient World Simulation. We're going into that in a moment

But let's focus on quantum dots, quantum computers, qubits—a short explanation. I've published this in many issues of Entangled Magazines and many live streams. I've talked about qubits. I've talked about the spin involved in quantum bits and qubits—the spin of electrons.

Here's what's going on. An electron orbits the nucleus, which is typically positive; positive charge. The electron is a negative charge. It orbits. When you look at the typical graphic representation of an atom, you see the electron spinning like planets around the sun, but in this case, around the nucleus. Those electrons have a quantum state. It's labeled as spin, but it isn't really like the spinning of a top or the spinning of a planet. It's actually the state. By state, I mean it's charged state; its electromagnetic north pole pointing up or pointing down.

Many of you heard this before, so bear with me. It is the direction up or down that the electron is pointing that allows it to function as either a “0” or a “1” for the purpose of binary computing. In a quantum state, it can point up or down; up, let's say is “1” and down is “0”. But in the transition from changing from pointing up to down, in that transitional state, it can operate in superposition.

That superposition means that it is simultaneously in the state of pointing up as “1” and pointing down as “0”. Think of a spinning top being pushed, tipped over, and it begins to tip over the top of the top. The pointed end begins to tip over towards the bottom of the other pointed end. It's in that transitional state of moving over to lower position (to the down position) that it can exist in a superposition of “0” and “1”.

That transitional state is what gives that acceleration to quantum computing, the speed at which it can compute because it's simultaneously using “1” and “0”. In a classical computer, it is using logic gates that move in a linear fashion. The electrons flow through the gates of the transistor. A transistor is nothing more than a gate that opens and closes. It opens and allows an electron to pass through the transistor. Then it closes, preventing another electron from going through. One electron will be a “1,” while another electron that's prevented from moving through the gate is a “0”. That's a very slow process, a linear process.

If you can have your electrons moved from just being a “1” or just being a “0” if you can move them to a state where the electron can be both a “1” and a “0”, you have a significant speedup in the computational process.

What does all this mean when they're talking about quantum dots? Providing the ability to create an artificial atom is defined as an atom that does not have a nucleus but is comprised of electrons and electrons that can be moved into a position of superposition existing as both a “1” and a “0” simultaneously.

What does this mean to you and me? Why is this relevant to the mark of the beast? Why is this relevant to the quantum dots delivered through the hypodermic needles of the microneedle array patch essentially delivered painlessly into the skin, into the body? What does this mean to you and I? I'm not talking about us as saved individuals because we will not be applying the microneedle array patch, but what does it mean to humans?

Why is this relevant to this discussion tonight? I'll give you a hint. Remember, these quantum dots function as biosensors sensors embedded in the body that monitor every bodily function, including your behavior, including your emotional state, including your thoughts. A biosensor, the quantum dots functioning as a biosensor, and because it is a sensor, it is transmitting information (digital information) by way of 5G signals transmitting from the biosensors in the body. These quantum dots are in every cell in the body, transmitting sensor data (digital information) and likewise functioning as an antenna they receive through 5G. They receive information that alters the way that people think.

This is the final solution. The quantum dots that we're talking about here in this article specific to quantum computing are exactly the same quantum dots delivered by the microneedle array that are then embedded in every single cell in the body.

Do you see the significance of what I'm presenting to you? Do you understand the ramifications for those that are not saved? The ramifications of these quantum dots? These quantum dots embedded in a person function as a biosensor. Do you remember when I presented to you a couple of years ago the whole discussion on the Internet of all Things? We talked about the sentient world simulation that everyone would be connected in this quantum computer-driven computer simulation. That everyone would be connected to the hive mind of the sentient world simulation. The quantum dots function as the brain-computer interface, the interface of the human brain, which contains the quantum dots delivered by the microneedle array. These quantum dots, which are artificial; they're silicon.

I presented this in January of 2013, the 3rd stranded DNA composed of silicon - the 3rd strand! Please pay attention. The 3rd strand of DNA scenario of silicon that I talked about in January of 2013, those silicon third strands are the quantum dots. **The quantum dots are the 3rd strand of DNA.** Please write that down. Nobody else is going to tell you this. The 3rd strand of DNA is composed of silicon.

I said it in January of 2013 that the silicon is the artificial atom that I just presented to you in this article. The 3rd strand of DNA are the quantum dots composed of silicon delivered by the

microneedle array patch. **Those artificial atoms are the 3rd strand of DNA.** Those artificial atoms are composed of artificially placed electrons, not just a single, but multiple electrons forming a shell.

Otherwise, in literature, it is described as an electron cloud. I presented that the electron cloud, for many years, as the more accurate model superseding the graphic that shows electrons orbiting like planets around the sun. There are so many electrons they actually form a shell, a cloud, around the nucleus. In this artificial atom, there is no nucleus. It's not necessary. You only have electrons in this formation of an artificial atom.

Now, why are those electrons important to understand? Because you now (not you) but humans that take the mark now have qubits (I said this in 2013) in their body, dormant nanoparticles. Qubits are nanoscale; they are, on average, 10 nanometers in diameter. 2013, I described them as dormant nanoparticles that once, they're triggered by an electromagnetic signal. We didn't have 5G in 2013 in the public papers. But the electromagnetic signal that I described in 2013, which is today the 5G electromagnetic signal, will trigger the nanoparticles to begin to replicate.

That is the 3rd strand of DNA that is replicating. That is the manipulation of those electrons from up spin to down spin or down spin to up spin depending on their original state, and all of these electrons are quantum entangled. This is the essence of how quantum computers operate; It's through quantum entanglement. This is why Kathleen and myself founded this magazine, and we titled it, labeled it, named it "Entangled" because these electrons are quantum entangled in a quantum computing environment.

Now the environment is within the human body. We have now moved from the D-Wave black cube, a 10 (ft.) by 10 (ft.) by 10 (ft.), roughly speaking to the black cube, which is emblematic of the black cube within Saturn itself, Saturnalia. You've heard me talk about all this stuff for years.

We are now moving from a physical computer in a room, cryogenically cold. Qubits that are in a state of superconductivity, colder than outer space, cryogenically cooled environment in a computer to (what I talked about in 2013) in silico DNA, warm and wet qubits. You've read this in Entangled Magazine, warm and wet qubits. We're talking about body temperature qubits, not superconducting, not super cold, not colder than outer space like D-Wave and IBM, and Righetti, and the others that have quantum computers, Google's quantum computer. These qubits do not need to be refrigerated.

This article that you have right now is the smoking gun of the final solution. I hope you are understanding what we're delivering here tonight. This is one of the most important live streams we have ever presented.

What we're talking about now is that humans (not us) taking the mark of the beast are now quantum computers; third strand of DNA is the quantum computer.

Quantum dots that are now the brain-computer interface to the quantum computers (themselves) that generate, operate, maintain, control the sentient world simulation.

I'm about to take you to a new version, a new description of the sentient world simulation. Brand new information that I'm going to present to you in just a few minutes.

I want to drive home the point that those who take the mark of the beast have artificial atoms, comprised of artificially placed electrons, within the quantum dots composed of silicon that have been delivered through the hypodermic needles inspired by the fangs of the pit viper. Hypodermic needles were inspired by the fangs of the serpent. Satan himself embodied in the serpent with the fangs, the hollow fangs that deliver the venom through the hollow fangs of the pit viper inspired the syringe-based hypodermic needle delivery of drugs.

Now we move away from the syringe, but we still have the fangs of the serpent embedded in the microneedle array patch. It is still the serpent system. Now, the serpent is delivering the artificial ^{third} strand of DNA that I announced in January of 2013, which was inspired and understood through the Holy Spirit back then. I published this in both of my novels, "Covert Catastrophe" in 2013 and "2048: Diamonds in the Rough" in 2014. All of this.

These quantum dots, which are artificial atoms, have artificially placed electrons. Here's the punch line. 5G is electromagnetic. Quantum dots, the electrons themselves, respond to a magnetic signal. 5G is a magnetic signal. It is in the electromagnetic spectrum. 5G can change the spin of the electron from pointing up (the northern pole of the electron), it can change it to pointing down "0" (from a "1" to a "0") and achieve in that transitional phase superposition wherein it functions as a quantum computer.

I'm saying that the 3rd strand in the DNA in a person's body is an atomic scale, nanoscale quantum computer. This is Edge Computing. I'm going to read you something in a little bit. Edge Computing means that there's a limited amount of computational processing that is taking place at the source of the data. Then it is transmitted through 5G to the cloud for further analysis, computation analysis, and storage of that information. The microneedle array is a biosensor. These nanoscale quantum dot electrons are artificial atoms that reproduce once triggered by a 5G signal, just like I said in 2013. 5G is operating that nanoscale computer. It is operating it because it's changing the spin of the electrons in the quantum dots.

Why is this important? Because now you have every human that takes the mark, in direct quantum entanglement.

Please pay attention. Quantum computers operate through the entanglement, quantum entanglement, of electrons. There is no time delay in that communication. You change one electron from an up spin to a down spin; it simultaneously changes its paired electron. You change one from up and one from down; they flip. They change their spin, their orientation. That's entanglement. There's no time delay. It's an instantaneous change in state, up and down, of the entangled pairs of particles. In this case, these pairs of electrons inside the human body, inside every cell in the body. So, in the cells, you have quantum entanglement.

Here's the punchline. The entangled electrons inside the human body, in every cell, are also quantum entangled with the quantum computer of which there are numerous quantum computers, all daisy-chained, all networked together functioning, operating, controlling the sentient world simulation, which is the hive mind.

You do not need a 5G signal for communication of the data from the biosensors, from the nanoscale silicon quantum dots, which are nanoscale quantum computers with entangled electrons. Those entangled electrons in the human body are instantaneously entangled with the qubits of the quantum computers that are daisy-chained and networked together, operating the entire global system.

5G is rendered obsolete. At this point, 5G functions to operate the nanoscale quantum computer initially within the bodies, and once 5G triggers those, I said this in 2013, when those 5G signals cause this entanglement to be established in the quantum dots, the artificial atoms comprised of nothing more than a shell, a cloud of electrons, and those electrons are entangled with one another in the human body, 5G is no longer necessary.

It's only an intermediate step. 5G is only there to kick-start the nanoscale quantum entangled electrons of the quantum dots delivered by the microneedle array. 5G, at that point, is no longer necessary for the communication and the control of the human mind and the human body. Because now within the human mind, within the neurons, within every cell in the body, are quantum-entangled electrons. Yes, those quantum-entangled electrons within the body are also concurrently entangled with larger quantum computers (nuts and bolts computers) D- Wave, IBM, Righetti, Google, etc. All networks together, all functioning for the purpose of simulating the planet.

I'm about to get to that new version of that simulation, about to deliver it to you. But understand when we talk about a person undergoing this change and losing all awareness, just like I said in 2013 and ever since then, losing all awareness that they have undergone a change. It's because of this quantum entanglement of electrons in their body that are entangled with the quantum computers, and the quantum computers are generating a simulated virtual reality known as sentient world simulation. That's the hive mind that those humans are then connected to. They lose all awareness that they ever had a previous existence. They don't even know that they've been changed at that point of entanglement.

This is why an understanding of quantum entanglement is so important because it connects the human minds to the quantum computers and they're trapped. They are enslaved to the Antichrist. This is the quantum mechanical explanation of the separation from God. This is where we're taking ancient Scripture and bringing it to the modern-day interpretation application understanding from 40,000 ft on Patch Airlines.

We completely now understand the separation, the quantum mechanical explanation of the separation of a person from God.

Years ago, I was asked this question from a quantum mechanical standpoint: Can you explain what prayer is with Jesus Christ? My answer was when we pray with Jesus Christ, we, from a quantum mechanical standpoint, we are quantum entangled. That's our line of communication. We're quantum entangled with Jesus Christ.

That's what prayer is. The most powerful weapons system on the planet is also a communication system that is completely encrypted and cannot be broken. Prayer cannot be hacked into by Satan

and his minions. He can't hear our prayers, which are quantum entanglement, encrypted communications. That's the quantum mechanical description of prayer.

Now take that and apply it to what I just said. Those that take the mark of the beast are quantum entangled with Satan. They're quantum entangled with the Antichrist, who as a human, is indwelt with the spirit of Satan. That is another counterfeit. That is a counterfeit of the personal relationship when we are born again. Satan's counterfeit of born again with Jesus Christ is the changing of the DNA of those that take the mark.

Now he's counterfeiting the prayer, which is our personal relationship with Christ. He is counterfeiting the prayer using quantum entanglement of (quantum entangled at the nanoscale quantum entangled) electrons in the quantum dots that are entangled with the quantum computers. That Satan inspired man, gave man the forbidden knowledge, to build quantum computers that operate on quantum entanglement.

You now have quantum computers, nuts and bolts machines connected through quantum entanglement in an artificial counterfeit form of prayer. Communication between computers in humans; a brain-computer interface is accomplished through quantum entanglement within the human body to the machine computer quantum computer entangled system.

In March of this year, Kathleen and I first presented to the world the microneedle array patch. What Kathleen presented to me, and I'm now presenting to you tonight and the full explanation beyond the article is pulling in everything, coalescing everything. What I'm presenting to you right now is as important as the March of 2020 announcement by Kathleen and myself of the microneedle array patch delivering the mark of the beast.

Now you take that live stream, and you marry it up, you merge it with what I'm presenting tonight, and you have the two most important live streams I think that we have ever presented. Please share this live stream. The microneedle array and now these artificial atoms delivered in the quantum dot system of the microneedle array is embedding quantum entangled qubits, quantum computing edge computing into every person that takes the mark. And it connects them to the quantum computers generating the artificial virtual reality of the world, Satan's world.

Let's go to the Patreon messaging again. You that are Patrons have the benefit of the archives and all of these articles at your fingertips. This is an article that I just shared with you. "Artificial atoms in silicon quantum dot create stable qubits for quantum computing." You have the fuller explanation of what this article is not saying. Keep that article handy.

Please go to the article from scitechdaily.com entitled ESA Φ (that Greek symbol is for Phi, P-h-i, and I'll define that in a little bit.)

Digital Twin Earth is the new title for the sentient world simulation that came out of Purdue University in 2006 and then went live in 2007. This is a Digital Twin Earth quantum computing, and AI takes center stage at Φ -Week. We're going to do a bit of a deep dive. We're probably going to go

over two hours tonight. So, I hope you have plenty of donuts from Joe Bag of Donuts on Patch Airlines.

This comes from scitechdaily.com, "ESA's Φ -Week: Digital Twin Earth, Quantum Computing and AI Take Center Stage. This is dated September 28th. Please read this entire article. "Digital Twin Earth will help visualize, monitor, and forecast natural and human activity on the planet. The model will be able to monitor the health of the planet, perform simulations of Earth's interconnected system with [with!] human behavior." Remember, AI learns from human behavior. "The model will be able to monitor the health of the planet, perform simulations of Earth's interconnected system with human behavior and support the field of sustainable development, therefore, reinforcing Europe's efforts for a better environment in order to respond to the urgent challenges and targets addressed by the Green Deal.

ESA's 2020 Φ -week event kicked off this morning with a series of stimulating speeches on Digital Twin Earth, updates on Φ -sat-1, which was successfully launched..." That's a satellite, Φ -sat-1. That's the Greek symbol for Phi. There are huge ramifications to using the Greek symbol. We don't have time tonight to go into it but remember geomancy. I'm going to define Phi and give you some of the background, but first, I want to get into getting this launched.

" Φ -sat-1, which was successfully launched into orbit earlier this month, and an exciting new initiative involving quantum computing.

The 3rd edition of the Φ -week event, which is entirely virtual, focuses on how Earth observation can contribute to the concept of Digital Twin Earth - a dynamic, digital replica of our planet which accurately mimics Earth's behavior. Constantly fed with Earth observation data, combined with in situ [that means in position] measurements and artificial intelligence, the Digital Twin Earth provides an accurate representation of the past, present, and future changes of our world."

When they talk about future, they're talking about divination, prognostication that they are acknowledging. This is the 180 process that we apply to reveal the truth in their articles, in their statements. Future changes of the world is divination, prognostication of future events, that is performed (computationally) both in classical transistor-based computers and in cubit-based quantum computers. This is all about divination, folks.

Digital Twin Earth [which is the sentient world simulation] will help visualize, monitor, and forecast natural and human activity on the planet. The model will be able to monitor the health of the planet, perform simulations of Earth's interconnected system with human behavior..."

Earlier I talked about psychological operations, problem-reaction-solution of the Hegelian dialectic, that is human behavior. This is all about human behavior for the purpose of controlling humans. AI learned from studying human behavior, modeling human behavior so that it could control human behavior through AI. All satanically driven, all inspired, all forbidden knowledge, delivered to humans.

“... and support the field of sustainable development, therefore, reinforcing Europe's efforts for a better environment in order to respond to the urgent challenges and targets addressed by the Green Deal.” Green is the color of Satan. There's another 180.

“Roberto Viola said, ‘Φ -week is the week for disruptive technology...’ Why did they use the word disruptive? “... Disruptive technology and its communities like this that our European programs were designed to support. Machine learning and artificial intelligence could improve the realism and efficiency of the Digital Twin Earth - especially for extreme weather events and numerical forecast models. Φ-week is the perfect example of the New Space approach focusing on disruptive innovation, artificial intelligence agility, and flexibility.”

Please read the rest of this article. It's not that technically deep. What I'm presenting to you just by taking excerpts is that they are continuing the advancement of the sentient world simulation in which every person is represented as a computer node and given an avatar. Then people are connected by way of their nanoscale quantum entangled electron qubits, entangled electrons functioning as qubits within the human body connecting them to the quantum computers driving this entire system.

In this article, “Quantum computing: Also mentioned in his opening speech this morning, Josef Acshbacher made a special announcement regarding an exciting new ESA initiative, the EOP AI-enhanced Quantum Initiative for EO known as QC4EO, in collaboration with the European Organization for Nuclear Research otherwise known as CERN.”

This takes us all the way back to my early days of broadcasting and publishing Entangled Magazine because most of you found out about me because of my research and presentation on CERN. We're coming full circle here, folks.

“Quantum computing has the potential to improve performance, decrease computational costs, and solve previously intractable problems in Earth observation by exploiting quantum phenomena such as superposition, entanglement, and quantum tunneling.

The initiative involves creating a quantum capability that will have the ability to solve demanding Earth observation problems by using artificial intelligence to support programs such as Digital Twin Earth and Copernicus.”

Now let me 180 that for you. This Digital Twin Earth is the virtual reality they are trapping humans in that take the mark of the beast. That they are now brain-computer interfaced, quantum entangled, connected into, and cannot escape. This is driven by artificial intelligence. They will always try to say this is for benevolent purposes. In this case, we're talking about the weather, forecasting the weather. When they say “Earth observation”, they're talking about one or more satellites observing the Earth from orbit.

Please let me 180 that and present to you that that is just more data that they're gathering that continues to increase in software. They talk about the granularity of data. That's the density of the

data. The 180 of this entire article is they are increasing the density of the data, the granularity of the simulation, not only the simulation of the Earth itself. This is the counterfeit of Satan.

When God burns the elements, when God brings forth the new Jerusalem, the new Earth, Satan's trying to counterfeit that with his virtual reality (sentient world simulation), Digital Twin Earth. He's using quantum computers both embedded in the humans and the physical machines creating a virtual reality—his counterfeit of the new Jerusalem.

When God is burning the elements, we're talking about atoms, molecules, electrons. You see, familiar Scripture taking into the modern era and interpreted from the modern perspective is what we're doing right here, right now.

God, burning the elements; Satan is counterfeiting that process, saying I'm going to use the elements to create a new Jerusalem, which is the virtual reality. That's what I am presenting in the 180 technique from this article to you tonight.

Here comes CERN. "ESA and CERN enjoy a long-standing collaboration, centered on technological matters and fundamental physics. This collaboration will be extended to link to the CERN Quantum Technology Initiative, which was announced in June of 2020 by CERN Director Fabiola Giannotti. Through this partnership, ESA and CERN will create new synergies, building on their common experience in big data, data mining, and pattern recognition."

Pattern recognition, golden nuggets of data, published in Entangled Magazine two years ago. Pattern recognition, geomancy, random number generation, random number placing of the dots in the sand, Ilam Ramal. Pattern recognition is quantum computers function. That's their function to recognize patterns embedded, hidden in vast quantities of data, big data. That's the function of data mining. It is used to discover the golden nuggets of data, which they themselves are the hidden patterns. The nuggets are the hidden patterns.

Why are they trying to recognize patterns? Because the recognition of patterns within the randomly generated data of the entire world, humanity functions only to generate data, otherwise known as random number generation. Humanity utilizing computing, which is based upon geomancy, produces the dots in the sand, in the silica, in the computer, in the phone. No different than the sand back in ancient times. It's producing the data randomly through the Internet of all Things, through edge computing. Humans function only to produce those random dots that then produce patterns that must be recognized.

But because of big data, because of the vast quantities of data that humans produce, those patterns are very difficult to discern, to pick out, just like grains of gold flakes of gold in tons of overburden in tons of rock and gravel.

Why do they need to recognize the patterns? Because that's how they divine the future. Satan uses humanity to discover God's plan, to discover God's timing. You see, he's not omniscient. He's using humans to divine what God is going to do next. Satan does not know the plan, does not know the timing of God. He's using humans, quantum computing, classical computing to discover those hidden

patterns because it is in the discovery of the patterns that they are able to discern the future. But only to a limited degree because it is only based upon probabilities. Quantum computing only provides a probabilistic solution.

I know I'm giving you a lot tonight. You must listen to this live stream again. There's too much to take in. But please understand Satan is trying to discover God's timing and God's plan by enslaving humanity to produce random numbers, random patterns, that he can then use humans to discover those patterns to divine the future.

If you don't know anything about geomancy, go look it up. It is prognostication; It is a dark art. It is an art that is forbidden by God. It's forbidden by God for humans to perform divinatory practices for their own safety. It is for the preservation of humanity. Satan's counterfeit of that preservation is to give forbidden knowledge leading to the destruction of humanity. You talk about a 180.

The data coming from CERN is the result of the collision of fundamental particles. The collision of fundamental particles is the counterfeit of God burning the elements. Again, familiar Scripture reinterpreted in the modern context. The burning of the elements, the luminosity. Where did they get the luminosity from? From Lucifer.

The label of luminosity is the result of the colliding of particles, the burning of the elements, the releasing of the energy within the colliders, within the detectors of the colliders. That luminosity produces data, measurements of energy, measurements of mass. That's what the data is. The data are the random numbers that are being generated by the random collision of particles. Thus, generated data, generated randomly, because of the collision of particles, is big data.

Quantum computers have been used for over four years. I have presented this now for three years publicly. CERN has worked with D-Wave quantum computers to take in the data from the collisions, the data represented as luminosity, and take that data and discover the embedded golden nuggets, the patterns, and from those patterns, they divine the future.

Quantum computers combined with the particle accelerator and collider of CERN and they're doing this with other particle accelerators and colliders like at Brookhaven National Laboratory. Particle colliders are random number generators, whether they're colliding particles in two oppositely circulating streams or particles that are accelerated and impact a fixed target. These are still collisions. The collisions produced in random fashion data and buried within that data are patterns.

Now in the world of quantum mechanics, in the world of particle physics, scientists will tell you those patterns reveal new physics, new physical processes. They reveal new particles. They reveal new subatomic, sub-nucleus, sub-quantum, smaller than the fundamental particles that make up an atom. They are claiming now that there are over 1000 new fundamental particles that have been discovered because of the colliding of particles; that's a cover story. When they say they have discovered new particles, it's a cover story. When they say they've discovered new energies, that's a cover story. When they say they've achieved higher levels of luminosity, higher yield, that's a cover story.

What is underneath the cover story are the patterns of data. Data that represent the energy levels: tera electron volts, giga electron volts, mega electron volts, peta electron volts. That's all data; all numbers representing that mass of particles represented by data. All that data, vast, vast quantities that's distributed over 100 research laboratories around the world.

So much data is produced by CERN and other colliders that it takes months, even years, for them to find what they're looking for. New particles, new energy signatures that indicate the discovery of new particles, most of which wink out of existence within picoseconds; just vaporize back to energy. But they have the fingerprint of an energy signature. I'm talking quantum mechanics and particle physics now, but those energy signatures are represented by data.

It's the data that is the gold. Forget about particles. Forget about energy. Forget about energy signatures. None of that; that is all cover story. They're really looking for the patterns of numbers (patterns of 0's and 1's) because the patterns divine the future; patterns are used.

Remember, all of this boils down to geomancy. Within geomancy, there are 16 basic patterns, and those 16 basic patterns are used to decipher, to understand, the random patterns. Those 16 figures are used by quantum computers replacing the human diviners of old. Quantum computers are replacing the human diviners of old, software-driven divination in quantum computers.

That software is based upon the 16 basic geomantic figures that a human diviner would use to discover the hidden patterns within the random dots made by a layperson in the sand who is seeking an answer from the human diviner. Today humans are seeking answers through quantum computers that apply the 16 geomantic figures whose sole purpose, the 16 figures, are to interpret the random data produced by CERN, produced by humans around the world using computers.

Those 16 geomantic figures of old that are used in quantum computers today tell the future. Auspicious and inauspicious; good times bad times. When is it a good time to do something? (auspicious); when it is it a bad time to do something (inauspicious). This is all familiar to long time patrons. Auspicious/Inauspicious is prognostication of the future. Is it a good time to do something tomorrow, next week, next year?

But it boils down to more than, "Is this a good time or a bad time to do something?" It is ultimately Satan trying to identify God's timeline.

I would venture to say that there are only a few elites in the world that understand what I am presenting. Kathleen and I together; I'm the mouthpiece today. I'm the face today of both Kathleen and myself. The initiates of the world in the secret societies, they know what I've just presented to you.

Satan has to reveal his systems, his plans, his initiates, his secret societies, his science, his quantum mechanics, his particle physics, his prognostications. He has to present all of that before he can present his Antichrist.

This is why the Holy Spirit is revealing all of this. This is why this is coming to you right now because we're on the threshold of the Antichrist identity being made known to the world.

Because the vaccine delivery is coming fast, the microneedle array in Phase 4, distribution of the vaccine, is coming fast.

They are talking January, February, March, maybe April. Look at the timeline of the vaccine distribution that I presented to you. We are within months of the microneedle array patch. Therefore, we are within months of the revealing of the Antichrist.

The fact that we are presenting this information to you tonight of the quantum entangled electrons within every human connecting them through quantum entanglement to the sentient world simulation, the virtual reality world, that Satan is building that humans will be enslaved in that take the mark.

Remember, quantum entangled humans to quantum computers. That's the brain-computer interface. Forget about Elon Musk and his neural link. Forget about all that. Forget about 5G linking people to the virtual reality. Forget about all that. That's all theater.

What I'm presenting to you is the actual system of the mark of the beast wherein people are quantum entangled with the beast, with the mind of the Antichrist. God is revealing Satan's system before the Antichrist is revealed so that the world knows and can make a free-will decision about the destiny of their soul.

Satan must reveal his plans because God demands that people have all of the information presented even if they reject it even if they're blind to it, even if they are deaf to it, even if they turn their back to it.

What I'm doing tonight, Kathleen and myself is presenting the Gospel to the world. Scripture says that the Gospel will be presented to everyone on the planet so that they have the ability to make a clear choice. Nothing is hidden from anyone. They can choose to ignore it, but it is presented to the world, and we're doing that tonight.

Satan will quantum entangle a person that takes the mark to the Antichrist. Quantum computing is the Antichrist mind. Quantum computing is the Antichrist mind. Brain-computer interface is the quantum entanglement of humans, every cell in their body, including the brain, to the quantum computer. Multiple computers, daisy-chained, and network together that is the mind of the Antichrist. That's what the quantum computers are. God is revealing it right now, laying bare the bones of the infrastructure of the beast system. People will be quantum entangled with the mind of the Antichrist.

I don't think you've ever heard that anywhere else. But God has given us the understanding of quantum mechanics, quantum physics, particle physics, quantum computing, quantum dots, given us all the understanding. We can see from 40,000 ft. on Patch Airlines exactly what is going on now.

The big take away: Humans quantum entangled with the Antichrist. Humans that take the mark of the beast will be quantum entangled with the mind of the Antichrist.

That's as simple as I can make it. If you want to take something and present it to people, that's it. The mark of the beast is the quantum entanglement of every cell, including the neurons of the mind with the quantum computer, Antichrist mind. The brain of the Antichrist is the quantum computing system. That's why it was built.

I don't know what else I can say. I've got some other reference material. Maybe let me just quickly take a look.

The golden ratio; look up Phi. Look this up for yourself, please, Phi. That's why they called their week-long event, Phi; Φ . Phi is for neophytes. Phi in capital is the number 1.618033988749, and it goes on. Most often pronounced Phi like fly is simply an irrational number like Pi, P-I, which is 3.1459, etc. but one with many unusual mathematical properties. Unlike Pi, which is a transcendental number, Phi is the solution to its quadratic equation.

Phi is the basis for the golden ratio section or mean. The ratio or proportion determined by Phi, 1.618, was known to the Greeks as the dividing line in the extreme and mean ratio and to Renaissance artists as the divine proportion.

It is also called the golden section, the golden ratio, the golden mean. Phi, like Pi, is a ratio defined by geometric construction. Just as pi is the ratio of the circumference of a circle to its diameter, Phi is simply the ratio of the line segments that result in a line divided in one very special and unique way.

Fibonacci sequence, I'm not going to go into all of that. It's just a new number sequence. It's simply the sum of the two before. Look up the Fibonacci sequence. I'll give you a place to go for all this: goldennumber.net. Go to goldennumber.net and look at Phi. This is why they called it the Φ -week. It's the golden ratio: the Fibonacci number system, the Fibonacci sequence.

Why is all this important? Because it is geometric, it is mathematical. I'm giving you the short; distilled down take away of why they labeled it Phi. It's because it is the mathematical description of the virtual reality, sentient world simulation. It is the quantum computer-generated virtual reality of the beast of the Antichrist.

The Greek symbol Φ , Phi, is the symbol of the geometric construction, the programming, geometrically, mathematically constructed virtual reality. Those of you that understand how computer games are built, vectors. Computer simulations are geometric simulations. The software arranges the numbers geometrically. The virtual reality created by quantum computing utilizes numbers arranged in a geometric pattern, all summed up by Phi, the Greek symbol Φ .

Now Phi is the dividing of line segments and the ratio of those segments to one another. The dividing of the lines. Look at the Scripture that talks about how the Antichrist can create new laws and divide time. He can change time. Familiar Scripture in the modern interpretation, in the modern context. When we are reading about the Antichrist changing time, we're talking about the virtual reality generated by the dividing of the timeline.

Phi is the dividing of the timeline, linear time. Time is a line, a straight line, as the human mind understands time. A straight line: a beginning and an end. Phi represents taking that straight line of the linear line of the timeline and dividing the timeline. That's what Phi is, dividing up the line.

When Satan, when the beast, when the Antichrist changes the laws, changes the laws of time, changes the time by dividing the line of time, which means he is changing our world, changing our physical environment. That's his counterfeit of burning of the elements. That is his counterfeit of the new Jerusalem.

Phi represents the geometry of the virtual reality. This is where computer gaming has its ultimate expression. Computer gaming was built for the purpose of building virtual realities. Computer gaming gave rise to artificial intelligence. The chipset gave rise to artificial intelligence. The algorithms of gaming chipsets are the algorithms that spawned the algorithms of artificial intelligence. The virtual reality geometric arrangement of the numbers in the programming of computer games creating the virtual reality in the games.

All those have their culmination in the virtual reality of the Antichrist. This is very complex. There are many moving parts. I appreciate that I'm overwhelming you tonight. Please listen to this live stream again. I will reproduce what we have said tonight in the pages of Entangled Magazine so that you can review it. You can digest it. You can pass it on in your witnessing to others.

The fact that the Holy Spirit is revealing this to you and me and Kathleen tonight is another indication of how near the revealing of the identity of the Antichrist is and following that will be the microneedle array patch.

God's sense of humor is that it is a patch and that Kathleen Patch and Anthony Patch are delivering the information about the patch. God's sense of humor.

Folks, I'm exhausted. I think we'll conclude. Tomorrow night, Tuesday, we'll present more. I will communicate with Doug Diamond tonight to render this live stream as quickly as possible. We will make this publicly available on YouTube tomorrow.

You can get a transcript of this (anthonypatchauthor@gmail.com). Print it out. Read through. Share the transcript and email it to others. I'll do the best I can to reproduce it in the magazine. Josh, one of our Patrons, has a wonderful paper that he has written for the October issue of Entangled Magazine, which will be included.

I've got to tell you, folks, this is the coalescence of everything that Kathleen and I have been made aware of through the Holy Spirit. Everything that we have presented to you in the live streams and in the pages of Entangled Magazine. What I've presented to you tonight is the summation, the coalescence, of everything we have presented to you for 3.5 years.

Thank you, Doug, and thank all of you, all of the Patrons, who have made this possible through your support. Thank you to everyone who has been spreading the word to others.

I want to give all glory and credit to the Holy Spirit, to Jesus Christ, our Lord and Savior, and to God Almighty. Kathleen and I take no credit. We're just humble witnesses. I am overwhelmed, and I am awe-inspired by what He has presented to us tonight.

Quantum entanglement at the nanoscale, the entanglement of electrons in artificial silicon-based atoms within quantum dots delivered by the microneedle array entangled with the quantum computers generating the virtual reality of the hive mind, the entanglement is the brain-computer interface with the beast.

God bless you all and good night.
